DATE: 28 April / 13 August / 6 December 2023
FEE: RM550

DURATION: 1 Day
HRD CORP SCHEME:
HRD Corp Claimable Courses

PROGRAM OVERVIEW

Every employer has their duties under legislation to ensure their employees and other person related directly or indirectly to their activities without any risk to safety and health. Preventing workplace accidents is the ultimate responsibility of employer as required by OSHA1994 and other related OSH acts as well as legislation. Through comprehensive accident prevention programs, employer will be able to eliminate hazards that have potential to cause accidents.

Accident investigation is one of the workplace accident prevention program that need to be implemented by employers to ensure workplace is without any risk to safety and health of their employees. Reporting of workplace accident will ensure employer comply with the legal requirement as per OSHA1994, NADOPOD Regulation 2000. Applying appropriate investigation methods will enable employer to identify the real root cause of accident at the same time will allow employer to implement appropriate mitigation plan and monitor effectively.
